To: Whom it may concern

Reference: Composition of surfactor Finland Oy's film products

Surfactor Finland's films are papers saturated with amino or phenolic resins. They are used to coat wood based panels or to bond wood veneers to each other or to wood-based panels. These films consist of

- paper
- resin (phenolic resole or amino resin)
- additives

Here by we confirm that surfactor Finland Oy's products do not contain SVHC-substances, according to the latest version of the candidate list, in amounts exceeding 0,1 % w/w (Candidate List of substances of very high concern for Authorisation).
